Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1¹⁵ rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the verbs, "receiving", "accessing", "displaying", etc. all need to be recited in the context of a computer connected to the network.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3627

Claims 1, 2, 3, 7, 8, 12, 13, 14, 16, 21, 22, 23, 24, 28, 29, 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bennett et al. in view of Hanby et al.

Bennett et al. disclose a dedicated terminal 1003 at which data is exchanged. As such, it discloses providing sales-related data over a network (SHIPPING OR BUY/BIDDING), the sales related data being forwarded from a supplier (iShip) to a broker (shipper PC 1003) and being customized for the broker (user enters provider's system through a hypertext e-mail link), receiving at a supplier a request for sales-related data from a user associated with a broker (user uses the computer of the broker to get nearest shipping location based on e mail address), the request for sales related data input from a broker network address being utilized by the user to submit the request for sales related data (see, col. 20, line 42, shipping center data defaults to preset origin zip code locations based on e-mail address recognized at log on) ; accessing broker information from a broker information database based on the broker network address (ship center database is accessed for shipping location); displaying to the user at least a portion of the broker information with at least a portion of related information (system displays the location of nearest shipping location, col.20); receiving request-

related information from the user (user sends weight of package information to system).

But Bennett et al fail to disclose an insurance based inquiry system and thus does not disclose accessing state related information that includes at least one of the users state of residence and the state in which the broker is licensed and generating the sales-related data based on the received request-related information based on the state related information. However, Hanby et al. do disclose an internet based insurance sales method/system wherein the quote engine requires rules to effect the desired quote see, col. 6 line 35; official notice is taken of the state based rates for insurance policies. It would be obvious to modify Bennet et al to include the internet based insurance purchasing application taught by Hanby et al. the motivation being the rapidity of ordering before rate changes occur. The article claims of 21 et seq. are deemed met by the function described above in terms of the apparatus which performs same.

2/22. Bennett et al. disclose asking the user to select the user's state of residence; and receiving the user's state of residence selection, and the user's zip code caused the closest most location to be displayed thereby answering

Art Unit: 3627

wherein the step of generating the sales-related data includes the sub-step of determining the sales-related data to generate based on the user's state of residence selection.

Re claim 7. Bennett et al disclose original zip code which answers to receiving a state of residence.

Re claim 8. The freight charge is read as sales-related duty.

Re claims 12,13,14, 28,29,30: official notice is taken of the old and notorious practice of generating an error message, returning incomplete forms and generating a decline message for unacceptable responses.

Re claim 16/35: Hanby et al. disclose including broker contact information at col. 4.

Re claim 53 see col. 14 lines 25-30.

Claims 3/23 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph^(only claim 3) set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

JAP

Applicant's arguments with respect to claim 9/24/06 have been considered but are moot in view of the new ground(s) of rejection.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to Joseph A. Fischetti at telephone number 571 272 6780.
